Logstash pipeline optimization for a Canadian multinational bank

CLIENT

The client is a Canadian financial services firm

They provide personal, commercial banking, global markets and investment banking services to more than 12 million customers

TECHNOLOGY STACK

elasticsearch | Kibana | Logstash

PROJECT CONTEXT

The client was using logstash to perform parsing and transformation of 50 million system of event logs.

They wanted an Elasticsearch expert to perform review of their Logstash implementation and pipelines to ensure best practices are followed and parsing is optimal.

SOLUTION DELIVERY

- SquareShift team reviewed the Logstash pipelines and scripts.

- SquareShift team provided the client 30 solid observations and ways to resolve the parsing issues.
